Committee reply to negative comments placed on Face Book**

"It was always going to be a difficult morning. The MET Office gave patchy fog in places along the Southern half of the country, so some birds would have encountered more than others. The Convoyer reported weather was good on site and our Race Advisers checked with other Race Advisers on their respective sites. Everyone did their very best, knowing it was not going to be an easy race. The majority of clubs have reported reasonable returns but agree velocities were lower than usual."
